

GLOBAL TRAINEE - DATA ANALYTICS

#FutureMakers

INTERNATIONAL INTERNSHIP TRAINING PROGRAMME

LET US GET STARTED WITH A FEW BASICS

What is an Internship Training Programme?

A programme that combines the best of both worlds - world class training + high quality Internship. Which makes it much more effective and useful for those wishing to make an entry into the data industry.

What is different about Ureka's Data Analytics programme? How will it help in making an entry into Data industry?

There are several special features, some of them are:

- Created and delivered by senior industry experts from top corporates like [GE](#), [Microsoft](#), [Apple](#), [Google](#), [E&Y](#) with strong technical inputs
- Programme's [razor sharp focus](#) on the real thing - developing Data Analytics skills through hands-on, practical work on live datasets under supervision of live mentors.
- Interns work on domain specific live datasets from [Amazon](#), [Netflix](#), [IBM](#), [NYSE](#) and others
- Learn and work from a company that is led by alumni from [INSEAD](#), [London Business School](#) and [University of Oxford](#).

What are some of the other benefits that make Ureka's Data Analytics programme unique?

There are several special features, some of them are:

- Ureka offers post internship job opportunities for top performing interns.
- Strong international exposure and experience - work with interns from different countries
- Gain two International certificates and in addition, recommendation letters to help make an entry into the industry

Do I need previous programming or Data Science knowledge or work experience to enrol into this programme?

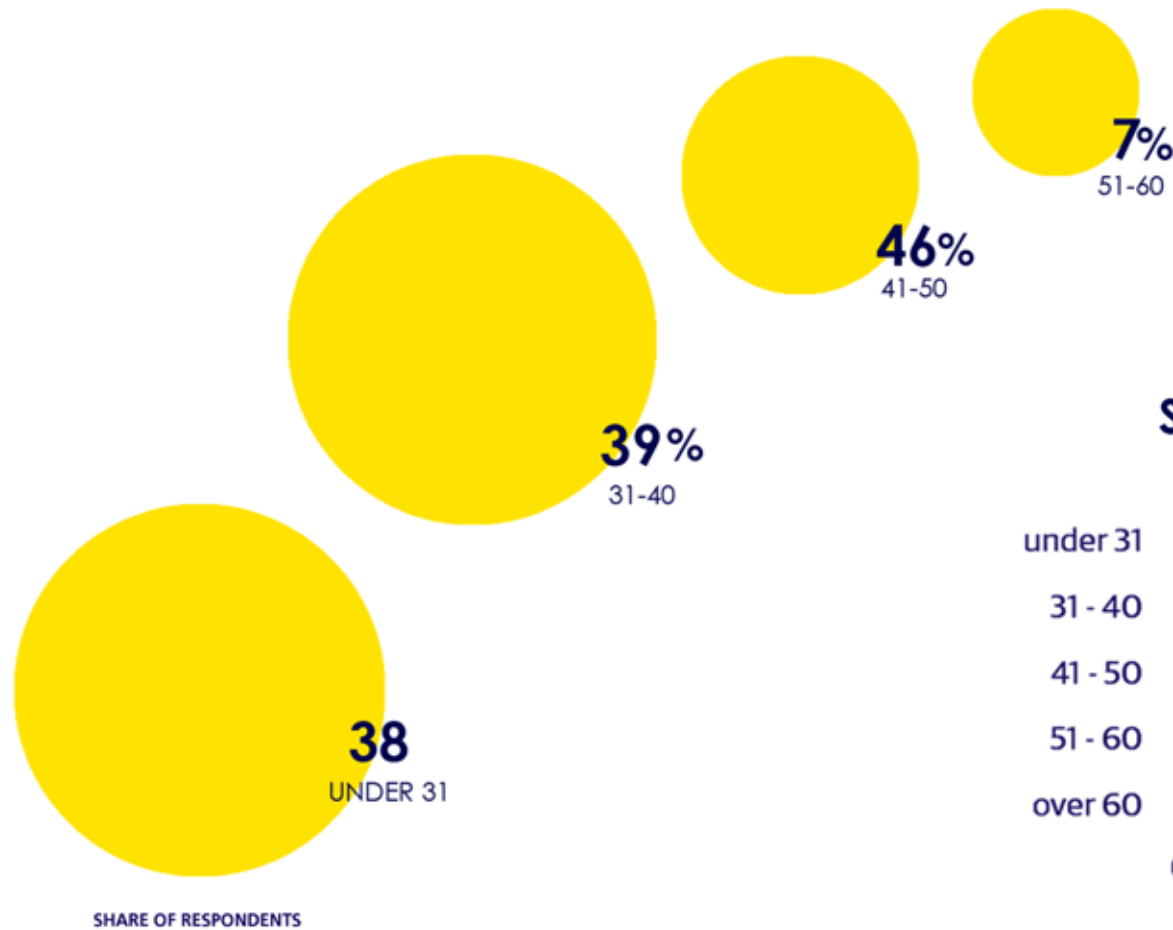

No, you do not need previous programming or Data Science knowledge

How much time do I need to spend weekly in completing this programme? Is there any flexibility?

You will need to put in 6-8 hours of work every week to complete this programme. Yes, the programme is quite flexible due to live mentoring and close human interaction, allowing participants to easily manage other commitments like exams, job requirements etc

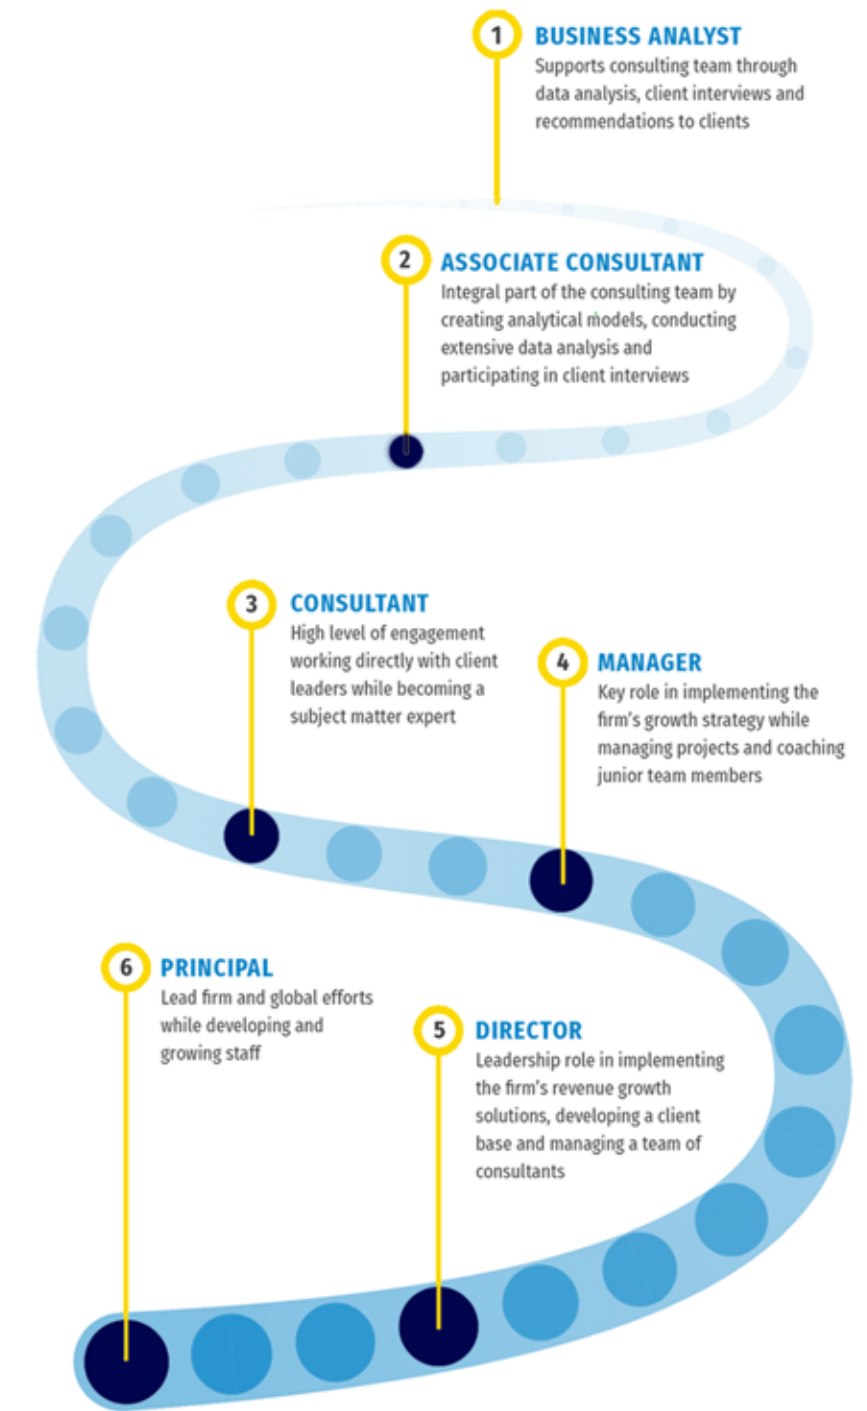

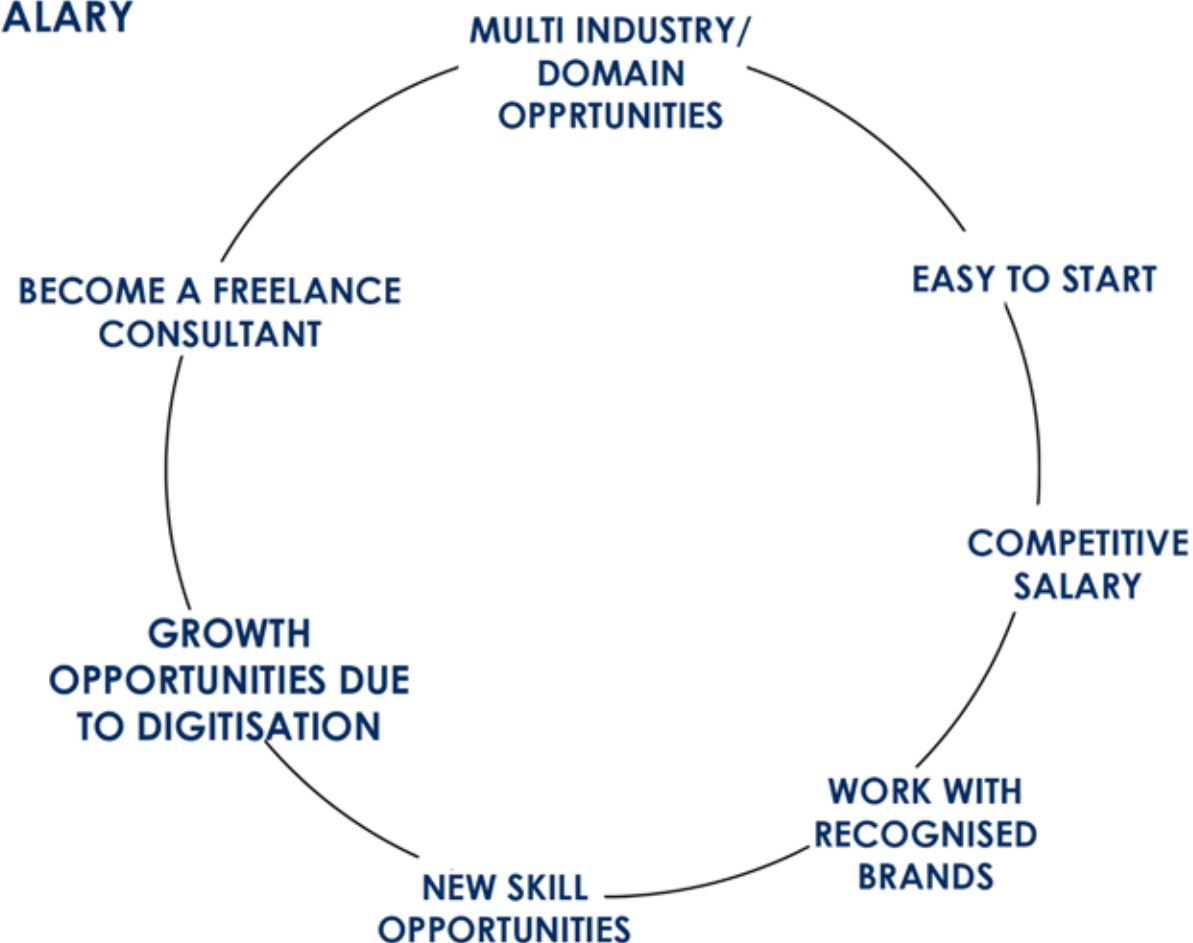

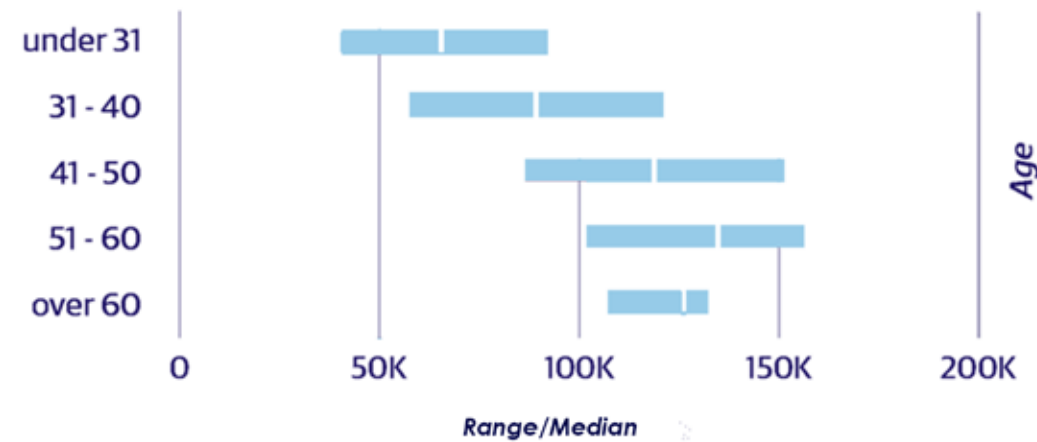

HOW CAN A CAREER IN DATA ANALYTICS HELP YOU

AVERAGE SALARY

SALARY MEDIAN AND IQR(US DOLLARS)

No matter how advanced Big Data Analytics jobs get, human insights will always be in demand. And as more companies look for experts to understand data and offer effective solutions, the demand for Data Analytics professionals will continue to increase for years to come.

OVER TO YOU !

WHAT WILL BE COVERED IN THIS PROGRAMME

The International Mentor is an award winning, industry expert who has worked as Lead Data Scientist with prestigious global organisations like GE Research and Microsoft.

Ureka Education Group takes pride in its Global Trainee - Data Analytics programme to develop such a level of competency in participants that they are confident of leveraging Analytics tools in their respective industries. WHO IS THIS INTERSHIP PROGRAMME FOR?

This internship training programme is for all those who want to acquire practical Data Analytics skills that could help transform their careers prospects. The programme is equally useful for:

1. **Students from any stream** for building one of the most transformational skill that can have immense impact on their career.

2. **Working professionals** – who want to fast track their careers and avail new opportunities. It is beneficial for professionals

ENTRY REQUIREMENT

- Domain knowledge (Finance, HR, etc)
- No technical background required
- No programming experience

HOW IS THIS PROGRAMME DIFFERENT FROM OTHERS

GLOBAL TRAINEE - DATA ANALYTICS Vs OTHER ONLINE COURSES AVAILABLE

One of a kind internship training programming

Live mentoring sessions

8.1% selection rate, making sure only deserved candidates are selected

Relevant and relatable to today's business scenario

Learning through hands on practice work on live data sets

Informative and insightful sessions with industry leaders

Team work and collaboration projects

Personalised Query resolution and guidance

Regular feedback on the work done

Hundreds of online courses available

Hours of pre-recorded content

Open to all, no selection process

Irrelevancy from today's market

Theoretical Emphasis

PROGRAMME BROUGHT TO YOU BY

UREKA EDUCATION

GLOBALKNOWLEDGEALLIANCE

Inspired By Excellence & Innovation

Global Knowledge Alliance (GKA) is an Australian based global initiative which brings together a Knowledge Community through partnership across the globe. Global Knowledge Alliance is an initiative to connect Academia with Corporate. Global Knowledge Alliance guides students to select the best possible course/degree/college as per their skills and interests. GKA is a signatory to a Memorandum of Understanding (MOU) with Association of Universities of Asia Pacific (AUAP) and an active Member of AUAP. GKA has its Head Quartered in Melbourne, Australia.

About GKA

Global Knowledge Alliance is a dynamic, forward thinking community of individuals, entrepreneurs and organizations with a common cause to actively advance and advocate knowledge development and dissemination through skilling, sharing and exchange for innovative, value based solutions for a changing world.

Global Knowledge Alliance is a dynamic, forward thinking community of individuals, entrepreneurs and organizations with a common cause to actively advance and advocate knowledge development and dissemination through skilling, sharing and exchange for innovative, value based solutions for a changing world.

The Alliance believes in joint development of new knowledge driven enterprises and experimental research; monitoring and evaluation; professional development; consultative services and technical assistance; policy analysis and assessment. The Alliance promotes expertise in topical areas spanning the knowledge and education spectrum, quality, accountability and universalisation of standards. Real knowledge is to know the extent of one's ignorance.

GKA Principle Pillars

1. To promote and further knowledge sharing and exchange for common good of all mankind.
2. To inspire leadership for knowledge transformation irrespective of race religion, ethnicity, poverty, language, disability, or other factors.
3. To apply innovation and research for identification and solution to mankind's problems.
4. To advance research and development as the driver of change in the knowledge economy of tomorrow's world.
5. To formulate strategies for skill based trainings particularly the youth and ensure quality standards.
6. To involve all stake holders and to connect communities and individuals for knowledge development and dissemination.
7. To ensure and assure scientific temper, rigor and relevance particularly amongst the youth.
8. To recognize and reaffirm that knowledge development is continuous and cumulative.
9. To turn principles into practice by adopting and adapting design tools, programs and services for knowledge sharing.
