Cyber Aware Professional (CyAP) Programme
26th March to 24th April 2022 (Weekends)

Global Knowledge Alliance (GKA) Ureka, in collaboration with Association of Universities of Asia and the Pacific (AUAP), is pleased to offer international virtual Cyber Aware Professional (CyAP) Programme that is offered Globally, which helps enhance the employability of students by helping them apply their classroom learnings into real world projects along with two international certificates.

Cyber Aware Professional (CyAP) Certification is a new generation industry readiness programme in Cybersecurity using a mix of futuristic gamified learning experience, international exposure, and peer to peer learning through international networking

CyAP

Cyber Aware Professional (CyAP)

CyAP Certification UK for Computer Science / IT faculty and students

Cybersecurity training using the world's most advanced training platform with opportunities for International Internship in Dubai.

What is CyAP?

Cyber Aware Professional (CyAP) Certification is a new generation industry readiness programme in Cybersecurity using a mix of **futuristic gamified learning experience**, **international exposure** and peer to peer learning through **international networking**.

Who is it for?

CyAP is beneficial for *all* Computer Science / IT students who wish to become both job and industry ready and also for those who wish to apply for international universities or pursue management degrees.

Can CyAP get me a job?

CyAP can get you an **international internship in Dubai** and if you successfully complete all three levels you will stand a very good chance of getting an entry level job as you would have been assessed and certified to have industry required skills.

CYMPIRE

CyAP Programme for Students includes:

1. CyAP Certificate from Ureka UK in association with Cympire, the world's most advanced cybersecurity training platform, globally ranked in 10 Most Trusted Cybersecurity Solution Providers by CIO Views in 2021.

2. Paid International Internship opportunities in Dubai. Top 5 performers on the programme will get an opportunity to work in Dubai on world's most advanced Cyber range under guidance of industry experts.

3. Work on one of the world's most advanced Cybersecurity training platform and get a futuristic gamified learning experience. Before going onto the platform, the fundamentals of 12 Cybersecurity topics of interest included in the certification are taught through instructor led, live classes on zoom.

4. Tremendous International Exposure with live sessions from NATO expert, Faculty in-Residence from Google, CFO of Israel's leading Cybersecurity Consultancy.

5. Hands-on complementary skills - Python Coding for Cybersecurity / Communication Skills and American Accent Training for Engineers by native US expert.

6. Career Bootcamp by Talent Development Manager of one of the largest cybersecurity services companies in the UK to make participants job and industry ready.

7. Networking, Careers and Best Practice sharing with computer science students from different international universities.

For Faculty from Participating Institutions:

For faculty from institutions whose students undertake the *CyAP* programme, we offer the following:

- International FDP worth $400 - attend for free, International Faculty Development Programme titled Making Cybersecurity Teaching More Practical & Hands-on by an Industry Expert from Israel and UK with verified e-Certificate from Ureka UK.

- International Conference Pass worth $300 – attend for free, CyAP Conference in Dubai / Spain in Dec 2022 with potential speaking opportunities.

- Paid International Projects - chance to get selected for the CyAP Train the Trainer Programme that would create opportunities to undertake paid international projects (part time) with Ureka UK.

- Get Recognition for the Department - participate in the Dr Duska Rosenberg Award for Cyber Awareness for Computer Science Departments at recognised universities and institutions.
